Summary

Aspiring Data Scientist with hands-on experience in machine learning, data analysis, and predictive modeling using Python. Skilled in building end-to-end ML pipelines, including data preprocessing, feature engineering, and model evaluation. Experienced with supervised learning algorithms such as Random Forest, SVM, KNN, and Logistic Regression. Developed an AI-based behavioral prediction system achieving 72% accuracy through end-to-end ML pipeline implementation. Passionate about applying data-driven solutions to real-world problems and continuously improving model performance.

Technical Skills

Languages: Python, Java, C

ML/AI: Random Forest, SVM, KNN, Logistic Regression, Deep Learning, NLP

Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch

Data Skills: Data Cleaning, EDA, Feature Engineering, Model Evaluation

Tools: SQL, Power BI, Google Colab, VS Code, Jupyter Notebook

AI & Deployment Skills: Prompt Engineering, Model Deployment, End-to-End ML Pipeline Development

Major Project – IEEE Publication

AI-Based Internet & Mobile Addiction Prediction System

- Collected and analyzed real-world survey data across multiple age groups using Google Forms, performing data cleaning, preprocessing, and feature engineering
- Built and compared ML models (Random Forest, SVM, KNN, Logistic Regression), achieving 72% accuracy
- Applied data preprocessing techniques including missing value handling and label encoding
- Developed an end-to-end ML pipeline and deployed an interactive interface using Gradio

Certifications

- Google Data Analytics Professional Certificate – Coursera
- Microsoft Certified: Power BI Data Analyst Associate
- NPTEL (IIT Kanpur): Cloud Computing & Distributed Systems (Elite – 81%)
- Prompt Engineering – Google (Coursera)
- NASSCOM: Acquiring Data (Gold Category) - IT-ITES Sector Skills Council
- HackerRank SQL (Advanced Certification)
- IBM SkillsBuild: 15 Leadership Qualities That Make a Great Leader

Relevant Coursework

Machine Learning, Deep Learning, NLP, DBMS, SQL, Data Structures, Operating Systems, Statistics & Probability

Internship Experience

Upskill Campus – Python intern | July 2023

- Built a database-driven quiz system using Python and SQLite, performing CRUD operations, and optimizing data retrieval with SQL queries.
- Implemented random sampling and validation logic, improving quiz performance tracking and user interaction

Digital Bhém – AI intern | Aug 2023 – Nov 2023

- Developed a Seq2Seq chatbot using Keras and Bidirectional LSTM
- Built a sentiment analysis model using NLTK and ML algorithms (Logistic Regression, Naive Bayes)
- Performed text preprocessing including tokenization, stemming, and regex cleaning

Eisystems – Machine Learning intern | July 2024

- Built and evaluated a multi-class classification model on the Iris dataset, applying supervised learning algorithms and end-to-end ML pipeline techniques
- Performed EDA and model evaluation, achieving strong classification performance using accuracy, precision, and recall

Leadership & Extracurricular Activities

- Student Coordinator for “Ideathon,” leading participant coordination and event execution
- Participated in “Treasure Hunt,” demonstrating teamwork and logical problem-solving

Interests

- Competitive coding and problem-solving (LeetCode, HackerRank, GeeksforGeeks)
- Team collaboration and analytical problem-solving

Achievements

- Solved 200+ problems on LeetCode, GeeksforGeeks and HackerRank
- Earned Gold Badge in SQL on HackerRank

Education

BTech (CSE – Artificial Intelligence) | 2021 – 2025

Madanapalle Institute of Technology & Science

CGPA: 8.27

Intermediate (MPC) | 2019 – 2021

SV Junior College

Percentage: 89.1%

SSC | 2018 – 2019

Sri Vivekananda Municipal High School

CGPA: 9.7

Languages: English (Fluent), Telugu (Native), Hindi (Int.)
